

# TUTORIAL: FLAVOURED WATER LABEL

## Project Introduction

Refined with a premium matt varnish and tactile relief coating, this label combines subtle elegance with sensory appeal. The layered finish elevates the look and feel of flavoured water, turning a simple product into a premium experience. Created to attract attention and reinforce premium positioning.

## Project Description

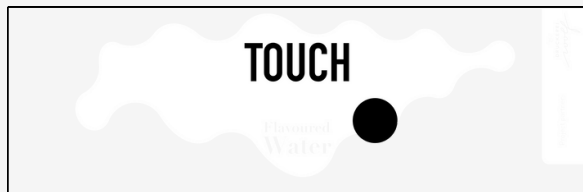

1

### Layer 1:

Using a hexagonal anilox roller, a matt varnish **Senoweb® UV Matt Varnish Stampable UV 5-32/004 A** is applied to create a smooth, elegant surface with a refined, low-gloss appearance.

2

### Layer 2:

A relief effect varnish **Senoscreen® UV Relief Effect Lacquer Water Droplet 82S 7820** is selectively deposited via a DY rotary screen, adding raised tactile accents that enhance both visual depth and sensory engagement.

## Key data:

Substrate	PP 60 Top Clear
Offset inks	Gallus one
Printing process	Flexo Printing
Coatings	Stahl Packaging Coatings
